My Dear Brother Phelps

15-

I have been thinking of you ever since I left you. I mentioned you at a conference to our people here & they have been praying for you and I doubt not the Lord has been with you. I found my people in an interesting state. The Rogerson Village is fairly swamped with excitement. I hope some what will settle down to the bottom. One man converted whom I never expected to see converted - a thorough going unitarian just the last man in town. So the Lord will have it.

Yesterday I submitted to my church whether or not they would have a protracted meeting. They unanimously rose & said amen yes amen. we will do it. And now my Dear Brother you must hold yourself in readiness to come on Wednesday morning. I wish you could come sooner so as to understand us a little. I should be glad. We shall have a glorious meeting I trust. I shall expect you unless I hear from you to the contrary. Just drop me a paper & write on it yes.

If you do not come till Tuesday I think you will be obliged to sleep down town in order to get passage. They would not take me unless I would be near the stage office. I think I left a black rock at your house if so please to bring it.
